EXPERIENCE

- 2016 • Software Engineer (PEG)
2012 Netweb Technologies / Delhi
- Worked on unified storage solution (FS2 - Flexible Storage Solutions) that supported high performance computing, provided multiple configurations by unifying network-attached storage (NAS) and storage area network (SAN) into a single box. FS2 provided the flexibility to use it as a NAS, SAN, or both.
- Worked on Tyrone Cluster Manager (TCM) which is an intuitive web-accessible interface, focused on reducing the complexity of using and managing your HPC cluster. It lets you deploy complete clusters and manage it effectively through a web-based user interface. Complete management capabilities including cluster provisioning, monitoring, reporting and management in a single product.
- Designed and developed Neweb ERP for storing complete details of the sold products. Integrated modules like Order Processing, Daily Reporting, Inventory Management, Support System, Employee details and documents.
- Technology:** Python, Django, jQuery, HTML, CSS
- Database:** MySQL, SQLite
- Operating System:** Linux
- 2012 • Web Developer
2011 DR Infosoft Pvt. Ltd. / Delhi
- Design and develop websites using PHP and MySQL. Design responsive websites using Wordpress, e-commerce websites using Opencart, payment gateway integration and maintaining of existing websites.
- Install, configure and manage Apache server on Ubuntu. Setting up Apache Virtual hosts on Ubuntu to serve different content to different visitors depending on which domains they are requesting.
- Technology:** PHP, JavaScript, jQuery, HTML, CSS
- Database:** MySQL
- Operating System:** Linux
